Accessible Tourism: Good Economic Strategy
will begin at 12:30 PM ET

About Your Hosts…

• TransCen, Inc.
  – Improving lives of people with disabilities through meaningful work and community inclusion

• Mid-Atlantic ADA Center, a project of TransCen, Inc.
  – Funded by National Institute on Disability, Independent Living, and Rehabilitation Research (NIDILRR), Administration for Community Living, U.S. Department of Health and Human Services

Listening to the Webinar

Online:
• Please make sure your computer speakers are turned on or your headphones are plugged in
• Control the audio broadcast via the AUDIO & VIDEO panel
• If you have sound quality problems, please go through the AUDIO WIZARD by selecting the microphone icon
Listening to the Webinar (cont.)

- To connect by telephone:

  1-857-232-0476
  Pass Code: 368564
  This is not a toll-free number

Captioning

Real-time captioning is provided; open the window by selecting the “cc” icon in the AUDIO & VIDEO panel

- You can re-size the captioning window, change the font size, and save the transcript

Submitting Questions

- In the webinar platform:
  - You may type and submit questions in the CHAT area text box or press Control-M and enter text in the CHAT area; your questions will only be visible to moderators
  - If you are connected via a mobile device you may submit questions in the CHAT area within the app
- Questions may also be emailed to: ADAtraining@transcen.org
Customizing Your View

• Resize the whiteboard where the presentation slides are shown to make it smaller or larger by choosing from the drop down menu located above and to the left of the whiteboard; the default is “fit page”

Customizing Your View continued

• Resize/Reposition the CHAT, PARTICIPANT, and AUDIO & VIDEO panels by “detaching” and using your mouse to reposition or “stretch/shrink”
  – Each panel may be detached using the icon in the upper right corner of each panel

Technical Assistance

If you experience technical difficulties
• Enter your message in the CHAT feature
• E-mail ADAtraining@transcen.org
• Call 301-217-0124
Archive

• This webinar is being recorded and can be accessed within a few weeks
• You will receive an email with information on accessing the archive

Accessible Tourism: Good Economic Strategy

Center for Excellence in Disabilities

WVU CED’s role:

- **Education and training** to University students in multiple disciplines to prepare a workforce that is able and willing to serve persons with disabilities
- **Technical assistance** to individuals with disabilities and direct care providers who serve them to enhance their skillset and improve service quality
- **Gap filling** direct services and supports in an effort to improve availability and acceptability of services for West Virginians
- **Dissemination** of information about the status of disabilities services in West Virginia and the nation
- **Research** activities conducted in collaboration with partners, to improve services and policies related to individuals with disabilities and their families.

About WVU CED

- Serves individuals with disabilities across the life span in all 55 counties
- 13 Programs
- 3 Clinics
- Approx. 90 Staff
- Multiple state and federal partners
Become an Affiliate

Looking for a way to be more connected to CED? Individuals can now sign up to be an Affiliate of the CED. Affiliates will:

• Receive updates on CED news and events
• Have opportunities to provide input regarding programs, services and research projects

http://www.cedwvu.org/about-ced/become-an-affiliate/

West Virginia Assistive Technology System (WVATS)

• Increases access to and acquisition of assistive technology devices and services
• Assistive technology is any device used to perform tasks that would otherwise be difficult or impossible
• Areas of emphasis in Education, Employment, and Community Living
• Exchange, Loan, Demonstration

Who are people with disabilities?

• WV leads the nation in:
  • Percent of population who have disabilities
  • Children with disabilities
  • People with work-related disabilities
• Nationally, majority are people 65 and older
Tsunami Facts – Did you know....

- Baby boomers began turning 65 in 2011.
- Some 12,500 Americans turn 50 each day, another 10,000 turn 65.
- Mature market is larger than the population of the United Kingdom or France.
- By 2029, all of the baby boomers will be 65 years and over.
- By 2056, Gen X is retiring and the population 65 years and over will be larger than the population under 18.

Visible and Hidden

- Almost 30% of adults in the United States have difficulty with basic movement or have sensory concerns.
- More than 60% of Americans aged 50-64 have at least one chronic health condition (80% of 65+).
- By 2020, half of the U.S. population will have at least one chronic health condition and one-quarter will be living with multiple chronic conditions.
Why do we care about people with disabilities?

- Over $200 billion per year in disposable income
- Over one trillion if you include families
- More than 21 million adults with disabilities traveled at least once in a two year period
- More than 50% of adults with disabilities stayed in hotels while traveling
- In a 2002 study, the ODO found that annual spending by travelers with disabilities equals $13.6 billion

SHOW ME THE MONEY!
Generational Diversity

- **Traditionalists** (1925-1945) – what matters most to them is the work itself; they will “take one for the team,” sacrifice for the common good, patriotism – for this group, the world is HUGE

- **Boomers** (1946-1965) – what matters most to them is getting respect; let’s enjoy the moment, anything is possible, cause-oriented – for this group, the world is a little more accessible, i.e. British invasion in music, Vietnam War

- **Generation X** (1970-late 1980’s) – what matters most to them is “am I appreciated,” want to be different or unusual, more diverse with less sense of home or security, very independent and informal – for this group, the world has always been accessible, international corporations, international banking, international flights

- **Millenials** – Generation Y (after 1988) – what matters most to them is the challenge that impacts the world, are tech-savvy but don’t even think of it as technology (just the way it is), “echo Boomers” – largest population group since the Boomers, full of self-esteem, also patriotism (the 9/11 impact) – for the group, they are “global” citizens, world is small

SPENDING BY GENERATION

- **Traditionalists** (1925-1945)
  - $471 per day when traveling
  - The “saving” generation

- **Boomers** (1946-1965)
  - $522 per day when traveling
  - Will inherit between 4-10 trillion dollars
  - The “spending” generation

- **Generation X** (1970-late 1980’s)
  - $627 per day when traveling
  - Spend slightly more on alcoholic beverages

- **Millenials** – Generation Y (after 1988)
  - $527 per day when traveling
  - 46% of food expenditure on food away from home

Where do Boomers spend their money?

- Shopping, eating the evening meal in a sit-down restaurant, wine consumption, visiting gambling casinos, lottery
- 14.7% eat fast food 3 or more times per week
- 18.3% had 4 or more meals in a sit-down restaurant every two weeks
- Prefer restaurants with soft music, light, no smoke, bigger bathroom stalls, well lighted parking lots
Travel

- Mature market accounts for over 80% of all leisure travel
- The average age of leisure travelers is 47.5 years old.
- Baby Boomers planned to take 4-5 trips in 2015, more than half in the U.S.
- Most likely travel is in spring, summer or fall
- Growing markets: celebration vacation, solo travel, multi-generational trips and weekend getaways vs. romantic getaways
- The 65-and older group of travelers spent an average of 4 percent of its total average annual expenditures on trips and vacations, about twice the share spent by travelers in most of the other age groups.

TRAVEL AND THE ADA

So what have we learned about Baby Boomers?

- Control 50% of the national discretionary income
- Take 4-5 trips a year
- More than 60% have at least one chronic health condition
ADA Requirements for Public Accommodations

- Parking
- Entrances
- Restrooms
- Paths of travel
- Signage
- And more!

New buildings and renovations

- Under the ADA, hotels, motels, inns and other places of lodging designed or constructed after January 26, 1993, must be usable by persons with disabilities.
REACHING EACH GENERATION

- **Traditionalists** (1925 - 1945)
  - Most likely to be repeat visitors
  - 1/3 read all available direct mail
  - 71% read local daily newspapers

- **Boomers** (1946 - 1965)
  - Most Boomers throw out the majority of direct mail they receive with the exception of mail-order catalogs

- **Generation X** (late 1980's)

- **Millenials - Generation Y** (after 1988)
  - 82% book travel online
  - Think their smart phones can solve all problems

COMPONENTS OF AN ACCESSIBLE MEETING

For Meeting Planners - Prior to your Meeting

- Need for accommodations information on registration form
- Available assistive devices - low-tech or high-tech
- Variety of dissemination mechanisms
- TTY number available for registration/questions
- Walk through the site with person with disability to verify accessibility features – use accessibility checklist
- Alternate formats
For Conference Centers - Meeting Room

- Accessible
- Comfortable
- Accommodating

Suggestions to increase accessibility:
- Signs to show room location
- Accessible rest rooms on same floor as meeting area
- Room set-up to allow for movement
- Check room for lighting, drapes close, availability of outlets
- Provide accessible seating, dispersed around room
- Request a raised speaker platform
- Provide convenient location for breaks, registration
- Registration table and catering table at accessible heights
- Check for potential safety hazards
- Separate lighting on interpreter

Key Points
- Anyone could be a person with a disability.
- It’s a good idea to plan to accommodate everyone – remember Universal Design principles!
- However, the probability is the individual with a disability will be 65 or older
- A Baby Boomer!
- Accessible Tourism is an economic tool for communities, as well as traditional tourism industries like hotels, resorts and restaurants.
- Baby Boomers control lots of money and love to spend it!
- If they have a good experience, they are more likely to be a return customer.
- Compliance with the ADA and incorporating Universal Design is good business!
